The Dimplex  
**Electric Fires** Collection

EN

## Why Dimplex?

Millions of people around the world enjoy the comfort we bring every day with our Decorative Electric Fireplaces. For over 50 years our customers and partners have relied on our people, products, and brand, to deliver atmosphere in a safe and sustainable way, with no compromise.

Our track record of bringing innovation, being first in market and opening new categories is driven by our desire to challenge the status quo and find better solutions to provide the comfort and ambience to enhance millions of lives, working closely and openly with our trade partners and customers.

## *Dimplex, Experience Better Living*

### **Why Dimplex in short**

- 50 years of experience in Electric Fireplaces: this is our focal point, no distraction and complete commitment to deliver the ideal solution for each customer.
- Patented technologies: all our flame technologies are patented and are the result of continuous investments and determination to bring the perfect atmosphere to your home.
- Complete product offer: we have the widest offer in the market to satisfy all needs, from plug & play to integrated solutions.
- Trusted service: our network is specialized in Electric Fireplaces and provides an efficient and collaborative support.
- Comfort and sustainability, with no compromise: we are devoted to bring the most sustainable fireplace experience to all homes, with 100% safety and zero impact on the environment.

# Why choose an electric fireplace?

**A decorative electric fireplace is the perfect solution when seeking an instant enhancement in any environment, whether it be in a home or a public space.**

*Ease of use:* Enjoy your fireplace whenever you wish, simply by pressing the remote-control button.

*Can be installed anywhere:* You have no constraints of smoke evacuation or thermal requirements; you can install your fireplace in any room, within a partition, inside a piece of furniture, or just by placing it.

*No maintenance:* No ashes to dispose of no insert glass to clean, and of course, no cleaning; you only need to relish the warm ambiance of your fireplace.

*Safety:* No emission of toxic gases, nor risk of fire.

*Year-round usability:* The heating function is independent of the flame effect. Therefore, you can enjoy the cozy atmosphere of your fireplace without heating when you don't need it.

*Environmentally friendly:* No use of fossil fuels.

*No chimney flues needed:* Consequently, you can install your fireplace at a lower cost and without location constraints.

# Flame technologies

The warm, flickering glow of a fireplace creates a cozy and inviting atmosphere in any home. Dimplex, a pioneering brand in the electric fireplace industry, offers a diverse range of cutting-edge flame effect technologies to suit every preference and home décor. The Dimplex flame effect technologies are: Optiflame®, Optimyst®, and Opti-V®.

## Optiflame

Optiflame® is the original Dimplex electric flame effect, and revolutionised the electric fire market when first launched in 1988. It creates a mesmerising and lifelike flame that provides warmth and ambiance in any room, with complete safety and the peace of mind of a maintenance free, electric solution. Endlessly refined and continually evolving, Optiflame® remains the world's most popular electric flame technology.

## Optimyst

Optimyst® is the world's most realistic 3D electric flame effect for those looking for a truly authentic experience, combined with the safety and low maintenance of an electric solution. Patented by Dimplex, it offers a flame experience that can be enjoyed from all angles, making it perfect for stunning room dividers and see-through fireplaces. This unique flame effect is generated by an innovative combination of cold water vapour and light.

## Opti-V

Opti-V® is the first and original virtual flame technology, patented by Dimplex. This stunningly authentic fire experience requires no maintenance and delivers a flame image equal to that of a traditional fire, with no emissions and in total safety. It delivers a virtually perfect flame effect through a magic combination of High Definition video and LEDs.

Cassettes

## Cassette 400/600 LED

230V/50Hz | 125 Watt

Experience Better Living

Cassettes

The Cassette 400/600 LED inset fire unit not only surprises with its free floating flame and smoke effect, its modest size and variable flame intensity make it highly suitable for 'endlessly' creative interior solutions: placed as a single unit in a table or inside a gas or wood fireplace, or as a line of fire by simply putting several units alongside each other. The only connection you need is 230V. Just fill the reservoir with fresh water and click on the remote for hours of cosy ambiance, over and over again.

- Ideal for creative projects, to be installed in furniture or used for other decorative purposes
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- View of the fire from 4 sides
- Newly developed with LED lights for lower power consumption with a longer service life
- Crackling logs sound effects with adjustable volume
- Logset available as an accessory

All-round view

Surprising by the floating flame and smoke effect and variable flame intensity

Optimyst flame technology, flame patterns by cold water vapour

Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately

Product is delivered without decoration, but can be decorated with a wood set (optional to be ordered)

Control all functions of the fireplace from the comfort of your chair

Sound effect of crackling wood fire

Very suitable for installation

## Cassette L Pebbles

230V/50Hz | 400 Watt

Experience Better Living

The Cassette L Pebbles is part of the Dimplex Cassette range, known for its unique, free floating flame and smoke effect, but now supplied with a decoration of white pebble stones. Easy to install in bespoke interior projects, only a normal electric socket is required. The flames are made of cold water vapour and light, which is safe, fume free and has a hugely decorative effect over the stones. Its water reservoir can be refilled from the front, which is very practical for frequent use.

- Suitable for installation projects and designed to fit into a custom-made frame or fireplace
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- The water tank is very easy accessible through a drawer in the front
- View of the fire from 4 sides
- Decorated with white pebbles (included)

All-round view

Surprising by the floating flame and smoke effect and variable flame intensity

Optimyst flame technology, flame patterns by cold water vapour

Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately

Comes as standard with white pebbles

Very suitable for installation

## Juneau (XL)

230V/50Hz | 200 / 450 Watt

Experience Better Living

Cassettes

The Juneau is an electric inset fireplace unit, ready to be installed into nearly any interior space or indoor object, including inactive gas or wood fireplaces. The three dimensional Optimyst® fire image comes from cold water vapour and light, which is startlingly realistic, can be seen from all sides, and is safe to touch. A practical detail: the water reservoir can be refilled from the front, without removing its glowing logset. In a few words: the Juneau is a perfect basis for great fireplace projects.

- Suitable for installation projects and designed to fit into a custom-made frame or fireplace
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- The water tank is very easy accessible through a drawer in the front
- Logset included

# Vivente Plus 75 | 100 | 150

230V/50Hz | 20 / 28 / 40 Watt

Experience Better Living

New!

Built In

Vivente Plus brings you the most advanced combination of comfort and energy efficiency. With our innovative Optiflame technology, combined with a unique crackling sound and the option of an authentic set of real or ceramic logs, it creates an unrivalled, lifelike fire experience. Featuring energy-saving technologies such as ComfortSaver, offering savings of up to 11% . Meanwhile, Smart Sense technology detects movement in the room and automatically switches the fire off when you're not there. With three sizes and layout options, finding the perfect fire for your home or venue is a breeze and with full control of your fire via smartphone, you can create the perfect atmosphere anytime.

- With three size and layout options
- SmartSense: auto-off feature saves energy by detecting room activity
- ComfortSaver: Maintains room temperature and saves up to 11% energy
- Optional: Black glass back panel for even more intense flames
- With Flame connect APP

- 3 installation options. Can be built in as a 1, 2 or 3-sided fireplace
- Fully adjustable fire image with high-contrast flames for a surprisingly deep and lifelike effect
- Optiflame technology, soothing flames with a lit glow bed
- Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately
- Comes as standard with an authentic logset
- Colour alternating flame effects
- Powerful fan-assisted heating by safe element that provides additional heating on demand
- Flame Connect app available for smartphone
- Thanks to the reflective back panel, the flames will be even more intensely
- 7 Day Programmable Timer

## Vista 130 | |||

230V/50Hz | 70 Watt

Experience Better Living

New!

Built In

The Vista is the perfect blend of rich flame experience and space-saving design. With sparks jumping off glowing logs and the crackling sound of a wood fire, the Vista gives you a lifelike flickering flame effect. Created with Opti-Virtual® technology, brought to you by the original inventors of the Virtual flame technology. Choose from a 3-sided or front-facing option, both with a stunning 40cm viewing window and limited installation depth. No compromises! Coziness meets functionality with the thermostatic heater, providing warmth and comfort at your fingertips. Even when the fire is off, the ceramic logs and decoration create a beautiful focal point.

- Opti-V® flame technology; the first realistic virtual flame technology on the market, patented by Dimplex.
- Realistic log set with glowing LED lights, stunning even when the fire is off
- Available in 1- and 3-sided option
- Flame effect with heating function for year-round enjoyment

-  1 or 3-sided fireplace
-  Blended 3D technology creates enchantingly beautiful flames
-  The first virtual flame technology on the market, patented by Dimplex.
-  Virtual technology and LED backlight produce lifelike fire effects, enhancing room ambiance in any situation
-  Product includes fixed logs, but Opti-Virtual technique creates an illusion of logs both in front and behind flames
-  Powerful fan-assisted heating by safe element that provides additional heating on demand
-  Control all functions of the fireplace from the comfort of your chair
-  Standard slatted backpanel enhances realism and visual depth
-  Adjustable up to 8 hours

## 3 Step Multi Optimyst

230V/50Hz | 260 Watt

Experience Better Living

Multi-colour!

New!

Built In

The 3 Step Multi Optimyst frameless fireplace offers multiple installation options to perfectly match your interior design and layout. With three layout options and fire created by patented Optimyst cold water vapour and multicolour LED lighting, it can provide a stunning fire view from different angles. It's safe to use, emitting no gas or ashes, and easy to control and personalise using its remote or app. You can enjoy the flame effect all year round, with the option to activate the heating function and crackling fire sound for added cosiness. It comes equipped with a drawer to easily refill water, for a complete stress-free experience.

- Frameless insert fireplace with three-sided fire view
- Can also be installed as one-sided or two-sided
- Flame effect with optional heating function for year-round enjoyment
- Realistic logset included
- With a drawer at the front, refilling the water reservoir is a simple task
- With Flame connect APP

- 3 installation options. Can be built in as a 1, 2 or 3-sided fireplace
- Surprising by the floating flame and smoke effect and variable flame intensity
- Optimyst flame technology, flame patterns by cold water vapour
- Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately
- Comes as standard with a logset.
- The colours of the flame can be adjusted to the colours blue, violet, red, aquamarine or change the colours to a mix by using the Flame Connect app
- Flame Connect app available for smartphone
- Sound effect of crackling wood fire
- 7 Day Programmable Timer
- Very suitable for installation

# Ignite 50 | 60 | 74 | 100

230V/50Hz | 19 / 23 / 27 / 35 Watt

Wall Insert

New standards to design and enjoying a fire are clearly set by the new Ignite XL series, which allow an unprecedented panoramic view of the flames. The colour of the LED illuminated interior can be adjusted to suit any occasion. Its silent heater starts up pleasantly quickly through concealed vents, working intelligently and efficiently. Still, it requires little space and effort to install. A high quality series throughout.

- Edge-to-edge glass offers a flawless panoramic view of the flames from any angle
- Fuel bed decorated with reflecting acrylic stones that can be illuminated in different colours
- Fast heat up thanks to the heat-boost function and with digital thermostat for easy temperature control
- Patented ComfortSaver heating system - Eco-mode for a lower power consumption
- Driftwood available as accessory

Freestanding

# Silverton

230V/50Hz | 60 Watt

Experience Better Living

Freestanding

Do you cherish your existing fireplace or stove but make no use of it? The Silverton is a smart and compact electric fire, designed to revive your wood or gas fire. Thanks to its glowing logs, its flames and smoke coming from cold water vapour and LEDs, enjoying your fireplace can be a comfortable and lasting experience, again.

- Compact freestanding fireplace
- Also suitable as an insert for inoperative fireplaces
- Glowing LED logset with loose logs for individual decoration
- Includes a glowing fire bed for under the fire basket

All-round view

Surprising by the floating flame and smoke effect and variable flame intensity

Enjoy the unique charm of a fireplace 365 days a year using the flames without the heat

Optimyst flame technology, flame patterns by cold water vapour

Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately

Control all functions of the fireplace from the comfort of your chair

Easy to connect to a standard socket for instant atmosphere

## Logset 20'

230V/50Hz | 9 Watt

Experience Better Living

Freestanding

The Logset 20" by Dimplex is an electric fire system designed to instantly revive your non-active fireplace. Very easy to install, safe, maintenance free and requiring surprisingly little energy. A great way to bring back the fascination of flames moving upwards from the glowing logs, reinstalling your fireplace as a focal point, for great moments around the fire. Fitted with ambient light functions, a heater and even a remote, to let you enjoy your fireplace comfortably at each moment of the day and year.

- Adjustable brightness level to suit the desired ambience
- Mirage Flame panel - partially frosted acrylic panel which works better than a mirror, showing only lifelike flames and no reflections
- The 360° light adds flickering light to enhance the firelight effect
- Enjoy the unique charm of the fireplace 365 days a year using the flames without the heat

All-round view

Fully adjustable fire image with high-contrast flames for a surprisingly deep and lifelike effect

Enjoy the unique charm of a fireplace 365 days a year using the flames without the heat

Optiflame technology, calming flames above the a colourful glow bed

Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately

## Gisella White

230V/50Hz | 1500 Watt

Experience Better Living

Would you like to set up a fireplace in your home and enjoy the cosiness, but have little space left? The Dimplex Gisella has been specially designed to offer the pleasure of heartwarming flames with warmth in compact homes. Also ideal as a second device in studies, bedrooms or in tiny houses

- Modern and simple, linear design
- With a glass attachment
- Rotary thermostat for temperature control
- Fan heater with two heating levels

- One-sided decorative fireplace
- Flames rising over a highly realistic glowing fire bed
- Enjoy the unique charm of a fireplace 365 days a year using the flames without the heat
- Optiflame technology, soothing flames with a lit glow bed
- Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately
- Powerful fan-assisted heating by safe element that provides additional heating on demand
- Control all functions of the fireplace from the comfort of your chair
- Fireplace can also be operated via button display on the fireplace
- Easy to connect to a standard socket for instant atmosphere

## Scandic

230V/50Hz | 10 Watt

Experience Better Living

A well balanced oval geometry characterizes the Scandic, with a design that was inspired on an original Swedish stove. A log compartment is inside to enhance its looks, as well as a storage shelf on top, to personalize it to your interior style. Thanks to its electric Optiflame® fire the Scandic is extremely simple to install and can be enjoyed all year round.

- Modern Scandinavian styled fireplace with log storage compartment
- Oval shape with white tile look alike on the side
- Storage compartment on top for decoration
- Rotary thermostat for temperature control
- The unique charm of the fireplace can be enjoyed 365 days a year using the flames without the heat

- One-sided decorative fireplace
- Flames rising over a highly realistic glowing fire bed
- Optiflame technology, soothing flames with a lit glow bed
- Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately
- Powerful fan-assisted heating by safe element that provides additional heating on demand
- Control all functions of the fireplace from the comfort of your chair

## Fyr 127

230V/50Hz | 200 Watt

Experience Better Living

Our FYR Line was inspired by the world-famous Scandinavian lighthouses: rugged fireplaces made from authentic materials, with pure, subtle details. Each one features beautiful flames thanks to the electric Optimyst® fire: visually appealing, safe and clean, as they are formed from natural cold water vapour and lighting. The Fyr 127 is a real innovation in the field of electric atmospheric fire. This fireplace is suitable for a range of applications, from small apartments to large public spaces and catering. The fire effect creates lively and real flames that rise from the center of the fireplace. The luxurious top plates are available with different wood finishes. In addition, you can adjust the flame height. Welcome to the future.

- Premium quality design, finish and appearance
- Easy-fill water tank, offering approx. 8-10 hours of operation
- 24/7 timer ensures a high flexibility, each day of the week can be set individually
- Enjoy the ambiance of the flames with or without the heater for all year round comfort

- One-sided decorative fireplace
- Surprising by the floating flame and smoke effect and variable flame intensity
- Optimyst flame technology, flame patterns by cold water vapour
- Powerful fan-assisted heating by safe element that provides additional heating on demand
- Control all functions of the fireplace from the comfort of your chair
- Mirror wall or stone motif wall as a backpanel option to match your interior
- 7 Day Programmable Timer
- Easy to connect to a standard socket for instant atmosphere
